

Use of personal information

If you have given blood in the past, certain information contained in your donor file, such as your communicable disease test results, your blood type and, if applicable, the reason for your exclusion as a blood donor, will be transferred to your research donor file. This is why we ask for your permission to access your blood donor file when you register for the Research Blood Donor Registry.

The information collected about you is kept confidential, in accordance with the law. You may consult your file and have it rectified if need be. To do so, please write to:

**GIVE FOR RESEARCH.
GIVE LIFE.**

Creation of the Research Blood Donor Registry has been approved by the Héma-Québec Research Ethics Committee.

Together, let's save more lives!

Héma-Québec is always looking for volunteers to take part in studies aimed at, for example:

- › evaluating transfusion medicine technology;
- › optimizing processes related to the preparation of blood products; and
- › developing laboratory tests.

These studies are essential in order to:

- › continue to ensure a sufficient and safe blood supply for the Québec population; and
- › remain at the cutting edge of technology and innovate.

► Why join?

By giving for research, you contribute to medical discoveries and advances, which in turn helps to save more lives!

► Who can join?

To register, you must:

be 18 years or over

be in good health

live in Montréal
or Québec City area

We give priority to registrations from persons excluded from blood donation for transfusion purposes.
