

Héma-Québec runs the only Public Mothers' Milk Bank in Québec. The Bank's mission is to supply pasteurized human milk to various premature babies in need of medical care whose mothers are unable to breastfeed.

Héma-Québec's tools will help you better understand your role as a donor recruiter. Your contribution on the front lines is crucial in promoting the Public Mothers' Milk Bank's growth and in helping Héma-Québec reach its goal to efficiently meet Québec's needs for quality blood and other biological products of human origin.

Fill out the form and send it to the Héma-Québec team.

Use this form to request promotional Public Mothers' Milk Bank material to help recruit more donors.
